

Protect Your Home from Water Damage — Automatically

Leak Safeguard Solutions installs whole-home automatic water shutoff systems with leak sensors placed at critical locations throughout your home. If water appears where it shouldn't, the system shuts off the water supply — within seconds.

Ideal for: seasonal residents, extended travel, unattended homes, and properties managed by HOAs or property managers.

What's Included:

- Professional on-site inspection and proposal (free)
- Automatic main water shutoff valve
- Leak sensors at critical locations
- Local installation and support

Typical Installed Cost: \$1,000

- Refundable scheduling deposit
- Cancel within 7 days — risk free
- Invoiced at completion
- Credit cards accepted
- Installment payment plans available.
